Subscription \$1.50 per year in advance

Elmhurst Concert Chorus Will Be In Mokena Sun.

With a novel program of songs available to no other concert choruses, the Elmhurst College Men's Glee Club comes to Mokena for a concert at 8 p. m. Sunday May 22 in St. John's Evangelical church in Mokena. The group under the direction of Waldemar B. Hille, will include the college male quartet and soloist, Edward Schlundt.

Featured on the program will be the ever popular "Negro Songs of Protest", arranged by Hille especially for the Elmhurst men's chorus. With words drawn directly from the lives of the Negro people in chain gangs, lumber camps, and fields and with music prepared in Hille's expert fashion, these selections have been dramatically successful where ever they have been presented.

At the climax of the glee club's work for the year has been their broadcast over a Chicago radio station. This engagement, conducted immediately after their tour of the South-Eastern States, won a wide recognition for the singers.

The quartet which sings special numbers on the program is also widely known for its concert engagements. In February this group sang in Mokena.

A second unique group on the glee club concert program is that taken from the modern Russian opera, "And Quiet Flows the Don" by Dzejinski. The Elmhurst group sings a series of choruses translated into English. The translations made with Hille's collaboration in New York in 1937, are available to few other choruses.

The complete program for the concert in Mokena is:

Group I: Sacred selections.
"Vere Lanquores Nostros" by Lotti
"Ave Maria" Bottazzo
"Thou From Whom All Blessings Come" Tschakowsky
"March of the Israelites" from "Eli" Vocal solos, Edw. Schlundt, tenor
Group II: Negro "Songs of Protest". Arranged by Hille.
"How Long, Brethern".
"Working on de Railroad".
"Sistern and Brethern".
"Let's Go to de Buryn".
Piano selections, Waldemar B. Hille, pianist.
Quartet selections, Emil Stahlhut, bass, Richard Kessler, second tenor, Edward Schlundt, first tenor, Carl Rasche, baritone.
Offertory, Organ selections, Hille.
Group III: Choruses from "And Quiet Flows the Don"—Dzejinski.

New Frankfort Fire Truck Successful Underwriters Test

The new Frankfort Fire Truck was given an underwriters test for several hours at the Art Geut farm on Route 45 Wednesday afternoon. The test was highly successful and was witnessed by firemen from Joliet, Kankakee, Bradley, Tinley Park and other towns.

The new fire engine is an American LaFrance 500 gallon pumper. Frankfort previously had a Ford Model-T chemical truck as its sole piece of apparatus, and village officials felt that additional equipment was needed.

The village was able to spend between \$3,500 and \$4,000 on the new piece of equipment. The truck if it were purchased with village funds, would not be allowed to make runs outside of the village in answer to the fire calls of farmers in the township. That has been the previous rule of the department.

Mayor George Sangmeister had an idea. If farmers of the vicinity wanted protection they should be willing to pay for it, he pointed out. Investigation showed that the farmers did feel need of protection, and were willing to pay \$25 each for it, pledging that amount in return for fire protection during the life span of the new truck.

A sum of about \$3,500 was raised from the farmers within a radius of six or eight miles of the village, and that, added to that which could be expended by the village of Frankfort, purchased the latest thing in fire equipment of its type.

Community Sing To Be Feature

Saturday night May 28th will be a special gala night for on this evening at the coupon auction at the Sippel Store in Mokena, a community sing and program will be put on under the joint auspices of K. Sippel Son and Cooper & Hostert. A very good time is assured for all. The community sing and program will be held in the large lot in the rear of the Sippel store.

Spring Dance

The New Lenox Band will hold a dance May 27th in the New Lenox school gym, instead of the Colonial hall as stated in last week's paper.

New Lenox Students Graduate Next Thursday

The New Lenox public school is to hold their annual graduation exercises at the school auditorium on Thursday night, May 26th at 8 p. m. The following program will be presented:

Music prelude, New Lenox band. Processional, Mrs. Howard Ayres. Invocation, Rev. Mr. Ellis. Welcome, Darwin Fitzer. Cornet Solo, Edward Mooney. All-school entertainment, Eugene Buys. Basketball, Howard Cruise. Invitational Tournament, Donald Osmus. Vocal Duet, Avita and Rita Demask. Band, Carl Mietsner. Parent-Teacher Association, Joan Russel. Library, Gertrude Wysock. Baritone Solo, Billy Ayres. Presentation of Awards, Mrs. Bessie A. Strasburg. Presentation of Diplomas, Dewey Moore, President local Board of Education. Music by New Lenox Grade School chorus. Farewell, Ramona Roth. Benediction, Rev. Mr. Ellis. Recessional, Mrs. Howard Ayres. Music, postlude—New Lenox Band.

The class roll is as follows:

Billy Ayres, Jack Batson, Marie Burns, Eugenia Buys, Howard Cruise, Avita Demask, Rita Demask, Anna Marie Derwood, Darwin Fitzer, Everett Henry, Harper Holt, Mary Janosz, Shirley Mangun, Carl Mietsner, Edward Mooney, Donald Osmus, Evelyn Osmus, Anna Mae Peterson, Ramona Roth, Joan Russel Wm. Szytz, Joe Wajchert, William Wanner, Gertrude Wysock.

The Board of Education consists of the following: Dewey Moore, President, George H. Bethell, Secretary, Adeline M. Griffin, William Kay Herbert C. Senning, George R. Stockley, Bessie A. Strasburg.

The New Lenox school faculty is as follows: James G. Gurley, principal, Ruth Smith, Nellie Brandt, Aileen Delaney.

Some Hand! Double Run of Clubs In A Single Pinochle Deck

At the card party given in the Jones home in Lincoln Estates by the VFW Auxiliary last Friday evening, Mrs. Ella Waldrup of Joliet, mother of Mrs. Morry Larson, of Mokena, was the proud possessor of a double run of clubs in a single deck of pinochle. The hand was dealt by Mr. Harold Folkers of Frankfort Mrs. Waldrup's opposite partner.

Tinley Park And Mokena To Open Baseball Season

The Tinley Park Baseball team will open their 1938 baseball season this coming Sunday at the Tinley diamond with Mokena furnishing opposition.

Married Men Get Break at Last!

Last Sunday as the married men were about to take the field against the Orioles, the heavens opened up and the ensuing flood saved the day for the Mokena Benedicts.

But next Sunday will be different. They won't be so lucky and the sun will probably shine.

So be sure and come out and see a real game. This annual game between the youngsters and the old timers is getting to be a Mokena Institution and between you and me, aside from being a lot of fun we all should strive to make this a great event. So let's all turn out and make it Mokena Day at the ball park.

Be sure and come early as we have only one bat. If that gets cracked the game will have to be called.

BATS HAYDEN.

Frankfort Class To Be Confirmed

The following class will be confirmed in the Frankfort M. E. church, Sunday May 22 at 10:00 a. m.: Adeline Deist, William Folkers, Ralph Heisner, Wilma Mark, Lauretta Reimers, Margaret Sangmeister and Raymond Tewes.

Coming Events

May 21—Orland and Tinley Legion Poppy Day Sale.

May 21, 26 and 27 WLS barn dance by Homer Dramatic Club.

May 26—New Lenox school graduation.

May 27—Frankfort school graduation.

May 27—Spring dance of New Lenox Band.

May 27—Tinley Park Civic Club Follies of 1938 at Oswald's Grove.

May 30—Memorial Day exercises at Mokena and Frankfort.

June 1—Mokena Grade and High School commencement.

June 5—St. Mary Catholic church Mokena June festival.

Attention All Will Co., Officials The New Lenox 5 Horsemen Are Riding Again

Contrary to some rumors that the Five Horsemen rode over some precipice into oblivion, we would like to make it known that we are still on the job.

We made a promise to inform our citizens of any graft or political corruption that may occur, and to expose and end any practice which tends to waste or otherwise use any tax money for any purpose other than for which it is intended. We still intend to do so.

Our fight against the slot machines comes under the graft part of our program, for how could they be allowed to exist if there was not some graft somewhere along the line? We have already pointed out some of the various state laws being openly violated with apparently the full knowledge and consent of our various public officials, as none of them made a move to stop this vicious racket until we told our people some of the truths. Even then the officials of New Lenox township made no move to enforce our laws but the machines were closed because of public opinion against them.

Fellow citizens is this not something worth thinking about? We suggested before that if our officials permit one law to be violated is it not reasonable to assume that they would allow other laws to be violated also—laws which may affect

us all more directly?

About 2 weeks ago you will recall all the local papers in Will County running headline stories of our State's Attorney Burke ordering all slot machines out of Will county within 2 or 3 days. Our Judge Wilson was in full accord with Mr. Burke in his statement. We together with all the people of Will county were glad to see that at last somebody was taking some action. Of course there have been others who made the same statement but that is as far as it went. The slot machines jingled merrily on. We hoped that this time they meant to do as they said. Maybe they do but at the present time in the eastern part of Will county the slot machines are running wide open and have been for almost two weeks. Is it possible that Mr. Burke has not heard of this? We wonder.

We, as citizens, want ALL public officials to understand that we expect you to do what we elect you to do. It is time to stop trying to kid us or you will pay the penalty of defeat when you come up for reelection to any public office.

THE FIVE HORSEMEN OF NEW LENOX

NEW LENOX WOMAN AWARDED \$5000 DAMAGES

Mrs. Mary Wrobel, New Lenox was awarded a \$5,000 judgement against Lawrence Berry, also of New Lenox, by Circuit Judge Edwin L. Wilson Wednesday afternoon.

Mrs. Wrobel sued for damages arising out of the death of her husband, Stephen Wrobel, three days after he had been allegedly struck by the Berry car on Feb. 11, 1937. He had been walking along Cedar road near New Lenox.

Attorney Sidney Baskin represented Mrs. Wrobel. The suit had been for \$10,000.

M. E. Churches Will Observe 200th Anniversary

Every Methodist Church throughout the world will observe the 200th anniversary of Methodism. The great matter is that when, on May 24, 1738, John Wesley felt the awareness of God at a little meeting on Aldersgate street. The significant thing here is that he went out from this meeting, "to do something about it."

The sign of progress in any church is determined by what that church is doing. Thus, the Mokena Methodist church this Sunday is holding special services as well as other Methodist churches throughout the land, for the purpose of paying tribute to the founder of Methodism.

During this service we are having a roll call of all the members of the Methodist church of Mokena and certificates of membership will be issued to every member. Also there will be a short service during this hour in which the name of those members who have passed away will be read and a song sung in memory of them. The names of former pastors will also be read and a hymn sung in their honor.

Special music will be given by the choir and the pastor will deliver the sermon entitled, "Christianity as Seen Thru The Eyes of Methodism."

Out Door Movies For Tinley Park

In order to provide a new drawing card for stimulating week end business and getting the public to come to town Saturday nights, the Tinley Park Business Men's Association will put on FREE out door talking movies beginning Saturday night, May 28th.

The movies will be in charge of Benton C. Black of the Educational Projection Service of Chicago. Mr. Black has been in charge of the movies shown at the Tinley Park public school all winter.

Details of the new out door show will be given next week. This is the first out of door movie show ever held in Tinley Park.

Serve Refreshments

The Ladies' Aid Society of the Frankfort M. E. Church will serve refreshments during the afternoon of Memorial Day, at the Frankfort Public school grounds.

Rev. W. Geffert To Speak At Mokena Program

The annual Memorial Day program will be held in the Mokena public school auditorium under the sponsorship of The News-Bulletin, at 10 o'clock DST, Memorial Day morning, Monday May 30th. The Rev. Mr. W. Geffert of the Immanuel Lutheran church of Mokena will be the speaker of the day.

The Mokena School band will furnish the musical part of the program. The pupils of the Mokena school will lead in the pledge of allegiance to the flag and will sing several patriotic numbers.

The soldier graves in the three cemeteries will be decorated with flags and flowers earlier in the morning, before the exercises.

The citizens of this and surrounding territory are urged to attend this service which commemorates our soldiers dead, many from our community and what their deeds of valor and sacrifice means to us and our country at large. If you are intending to go on a trip plan to first attend the Memorial Day service, if you possibly can, as a real patriotic deed.

Mokena PTA Health Program; Summer Roundup

In connection with the interesting lecture given in the Mokena public school gym on May 3rd by Dr. A. J. Levy, State Health Director of this district, it might be well to remind those who were present and inform those who could not attend, that the PTA is sponsoring an extensive Health Program for the coming summer and school year.

Dr. Levy heartily endorsed the local physician's suggestion for a "Summer Round-up" of the school children. The "Round up" as a Health activity, has been carried out successfully in literally thousands of communities, covering the entire United States.

Since its inauguration in 1925 by the National Congress of Parents and Teachers, it has grown in usefulness and importance, until it is now recognized by leading physicians and dentists the country over. It is one of the best ways of bringing to the schools, children who are as free from remediable defects as it is possible for the home to send.

The primary object of the Summer Round-up is to have each child examined; then any defects which can be remedied should be corrected by the family physician and dentist during the summer months. So, by the time school opens in the fall, the child is ready to take full advantage of his educational opportunities.

You, as parents, are responsible for the health of the child you send to school. If he is not well and strong, he cannot be expected to measure up, in his work or play, to others who are physically good. You cannot blame the child or the teacher if he is not doing as well as you expected him to do. Only when you have done your part thru the home to remove the obstacles that keep your child from getting a fair and equal start in school, can you expect to see the results in improved work and a happier child.

In addition, the Summer Round-up campaign urges the immunization against communicable disease and we hope to make it a medium thru which valuable instruction in child health is brought to the parents.

It is for this reason that we are asking Dr. Levy to speak to you on Tuesday evening May 24. He will be the guest speaker at the final PTA meeting of this term. Whether you are a member of this organization does not matter. Everyone is cordially invited.

Those who enjoyed his interesting talk and movies last time, will be looking forward to another, just as

3 Towns Send Out Air Mail

Several hundred people witnessed the dispatching of special air mail pouches from the post offices of Mokena, New Lenox, and Frankfort by air plane Thursday afternoon.

At 5:30 p. m. a plane piloted by A. H. Luke, known as "The Singing Pilot", landed in a field on the south side of Lincoln Highway across from the C. H. Warning farm.

The plane is owned by Mr. Luke who was a former New Lenox resident. At present he is an instructor in the Holy Name Aeronautical school on Broadway, north of the city of Joliet.

Mr. Luke's plane bore the letters NC and the number 7319. He photographed cards, papers and books, as "A. H. Luke, T. P. 21676."

Postmasters Ellis O'Daniel of New Lenox, Mrs. Katie Fink of Frankfort and Miss Margaret Maue of Mokena and mail carrier Glen Folkers of Mokena and New Lenox post offices and Herman Lorenz, mail dispatcher of Mokena, were on hand with their special pouches of air mail which were placed on the plane. The mail was flown to Joliet and later to Chicago. About 1600 pounds of mail were flown from Joliet to Chicago.

This air mail pick-up made history for all the local communities and climaxes air mail week.

A heavy rain fell an hour previous to the time the plane was to land and it was feared at first the plane pick-up of mail would have to be cancelled, but the rain was soon over and the sun shone again.

Miss Maue reports that 240 air mail letters were mailed from the Mokena post office.

Lightning Strikes

Lightning struck a house at 182nd and Harlem south of Tinley Park Thursday afternoon. The Arthur Johnson home was also struck. Both strokes were cold ones.

Frankfort Completes Memorial Program

Frankfort has about completed arrangements for their annual Memorial Day Program which will be held Monday May 30th.

A parade will form at the Frankfort school grounds at 1:30 p. m. daylight saving time, and will proceed to the Pleasant Hill Cemetery where the soldiers graves will be decorated with flags and flowers.

At 2:30 p. m. a Memorial Day program will be held at the school grounds with the Rev. Dr. E. W. Frenk of Joliet as the speaker of the day.

The Frankfort band will furnish the musical part of the program.

Refreshments will be served on the grounds by the M. E. church Ladies Aid. The annual Memorial Day supper will be served in St. Peter's Evangelical church parlors by the St. Peter's Ladies Aid society.

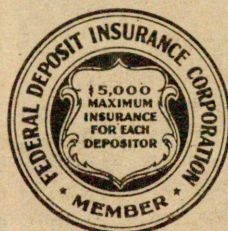

St. Mary's, Mokena To Hold June Festival

The Parishioners of St. Mary's Catholic church of Mokena will have a June Festival in their hall on Wolf Road June 5th. Delicious chicken and roast ham will be served.

interesting and instructive. He will have additional films to show and hope you will have many questions to ask.

Dont miss it! Remember Tuesday May 24 at 7:45 p. m., daylight saving time in the school gym at Mokena.

CONFIDENCE...

In a bank, is born the reliable service it has rendered in the past: its conservative policy, the substantial amount of its capital and surplus and, above all, the integrity of its personnel. That THIS BANK has measured up to those qualifications is attested to by, by the fact that depositors continue to "back it up" by trusting it with their savings. And their number is constantly increasing, we are happy to say.

'BOY!... FRONT!!'

Bellhops are the same the country over, hard-working, courteous chaps who hide their personalities under a pile of baggage or a stage smile. FOTO-FEATURE has selected a typical American bellboy in the person of 25-year-old Pete Longo, and presents herewith a pictorial story of his interesting life and work.

Pete and his wife get along comfortably on his average earnings of \$30 a week. They are childless.

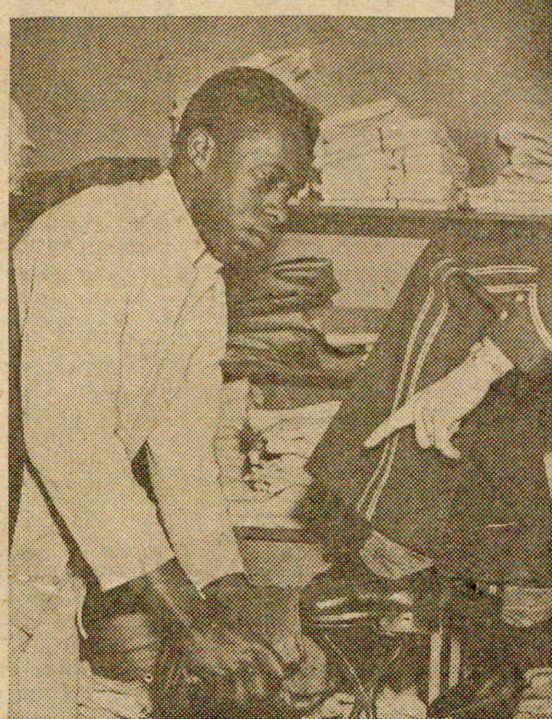

Pete works at the Roosevelt hotel in New Orleans and hops bells eight hours a day to help serve hundreds of visitors. Then he goes home, ready to call it a day and go to bed. But next morning he's off again.

Like any other working man, Pete finds it hard to get up in the morning, but a pretty wife and a pre-breakfast cup of coffee usually prove efficient eye-openers.

FOTO-FEATURE

Off with the pencil stripe and on with the brass button in a locker room Pete shares with 60 others. Then Jonas gives his shoes a mirror-like shine.

With military precision, the new shift lines up for inspection of clothes, shoes, fingernails.

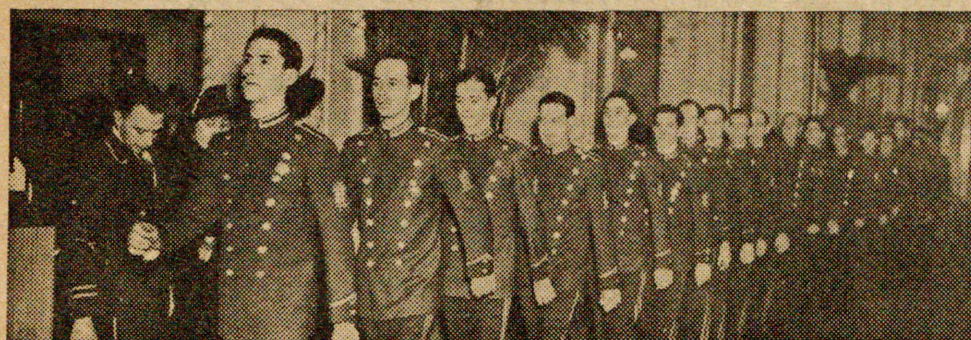

A bellhop's duties range from "rooming" a guest to airing her dog and lighting her cigarette. The former is most remunerative. Pete doesn't like to air dogs, but it pays good money.

No peckish good-bye kisses spoil this marriage. One lingering embrace and Pete's off to work, admonished not to forget that spool of thread on the way home.

Pete locates one-third of the guests he pages each day.

IMPROVED UNIFORM INTERNATIONAL SUNDAY School Lesson

Lesson for May 22

SERVING THROUGH CHRISTIAN CITIZENSHIP

LESSON TEXT—Mark 12:13-17, 28-34.
GOLDEN TEXT—Thou shalt love thy neighbor as thyself.—Mark 12:31.
PRIMARY TOPIC—A Sermon on a Penny.
JUNIOR TOPIC—A Sermon on a Penny.
INTERMEDIATE AND SENIOR TOPIC—Loyalty to God and Country.
YOUNG PEOPLE AND ADULT TOPIC—Obligations of Christian Citizenship.

"For God and Country" is a rallying cry that well summarizes the spirit and duty of the Christian citizen. So clear and inspiring are the teachings of God's Word regarding the relationship of the Christian to his country that one marvels that national leaders who are seeking to stimulate civic loyalty do not promote a revival of the study of the Bible. Dr. Moore is right when he says, "No bad citizen is a good Christian and no good Christian is a bad citizen." The solution of our nation's problems would be a great evangelistic campaign from coast to coast. A man like Moody would then appear in his true position as a great patriot. The soul-winner would be more important than the vote-getter. Why not try it?

Our lesson presents our Lord on Tuesday of His passion week, when He met His adversaries in their cunning efforts to entrap Him in His words so that they might condemn Him. The two incidents before us have broader application than to citizenship alone, but we may well consider them in that light, for they reveal that the citizen who is right with God will be right with the nation and with his own neighbors.

I. The Christian Citizen Loves His Country (vv. 13-17).

The Pharisees, who hated Rome for its domination of Palestine, and the Herodians, who supported Rome in its control of the land, were enemies, but they joined forces to tempt Christ. They knew that if He said "Yes" to their question the Jews would be angry, and if He said "No" He could be condemned as a traitor to Rome.

The trap was set, but it caught only the crafty hunters. Taking their own pocket money he declared that if they used Caesar's money they ought to pay taxes to Caesar. The coin stood for an orderly government, benefits of which they enjoyed and which they ought to support.

II. The Christian Citizen Loves God (vv. 20-30).

Although this point comes second in our lesson it comes first in experience. It is the man who renders unto God the love of the heart, soul, mind, and all of his strength (v. 30) who is ready really to love his country as he should.

The scribes loved to dispute about which was the greatest of the 613 commandments which they recognized. Jesus astonished them by referring to the passage of Scripture most familiar to the Jews (Deut. 6:4, 5), which declares the unity and absolute exclusiveness of the Lord our God. It may be well for us to stress this truth even in our time, for most folk regard the worship and service of God as optional.

III. The Christian Citizen Loves His Neighbor (vv. 31-34).

The scribe did not ask for the second commandment but Jesus presents it as an unavoidable corollary of the first. The man who really loves God will love his neighbor.

Every social injustice would be wiped out and every cause for strife removed if all men loved their fellow-man as they love themselves. Such a condition will never prevail, however, until men love God. It is too much for the flesh to put others before self. Only the grace of God is sufficient for that. Hence the real solution of the problems of capital and labor, the "haves" and the "have nots" is to win the men and women on both sides of the struggle to a true love for God through Jesus Christ our Lord. In other words, we come again to the inevitable conclusion that what our nation needs is a revival.

Social panaceas, revolution either by force or by law, dictatorships, all these are destined to failure. Men must learn to know and love God supremely and thus come to love their neighbors as themselves.

The crossroad Sunday-school teacher, the missionary in the city slums, the preacher of the gospel, whether in the great city or on the countryside, the faithful Christian living out the love of Christ daily in kindly word and deed—these are the real forces for social as well as spiritual good. Let us do all we can to prosper their ministry!

Sufficient Unto the Day

Do not look forward to what might happen tomorrow; the same everlasting Father who cares for you today will take care of you tomorrow, and every day.

Living Wisely

Let no one think that the way to gain the next world is to despise this one.

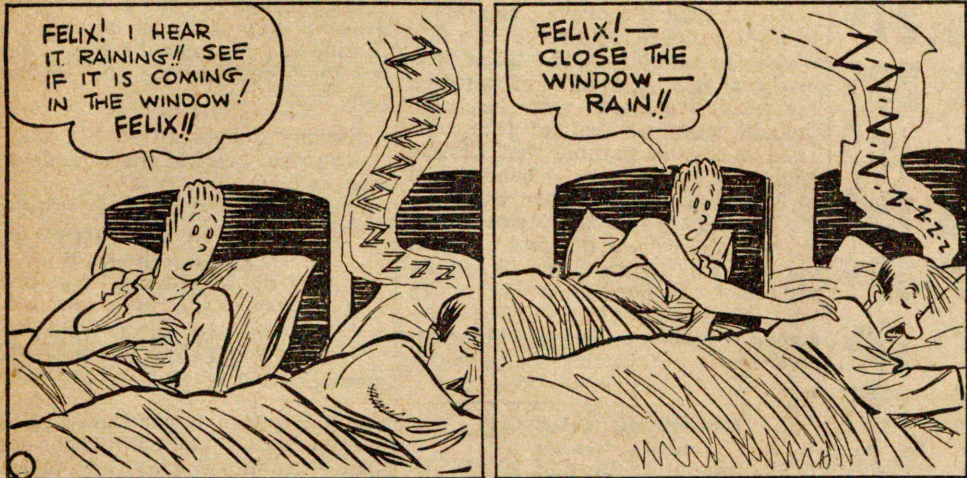

Little Courtesies

In the stir and hurry of life how careless we are of little courtesies!

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

TINLEY PARK

Miss Marie Eichelberg of the south subdivision of Tinley Park had a very narrow escape when she fell out of a car last Sunday evening on the way to Harvey. She is suffering from a head concussion and is bruised quite badly. Her friends wish her a very speedy recovery.

Melvin Keup left Monday morning for Andover, South Dakota to visit his parents, Mr. and Mrs. G. H. Keup.

Mr. and Mrs. Gus Batterman and son Harold and Mrs. M. E. Firnhaber and daughter Marlene of Beecher visited Mrs. M. E. Keup and Ervin Batterman this week.

Miss Elizabeth Bain, English of Ammons, Kentucky has accepted a contract to teach district school No. 161 near Tinley Park, for the coming school term. Miss English has had several years of experience teaching in Kentucky. She has been visiting for the past few weeks with her brothers, James and Logan, proprietors of English Bros. Garage.

Jack Dean, eldest son of Mr. and Mrs. H. Dean of Tinley Park, is reported to be getting along fine since his operation for appendicitis. Friends and neighbors hope to see him home soon.

Mr. and Mrs. Ruppert of Chicago have been visiting with their son Roy the past week.

The village officers are enforcing a drive for the payment of delinquent auto licenses. Police Chief C. A. Steinhagen has been giving tickets to the delinquent auto owners with the result that the licenses are being paid up before the cases get into court. About 80 licenses were still unpaid at the latest reports.

Mr. and Mrs. Wm. Funk and Mr. and Mrs. Geo. Hartman visited a testing field for retriever hunting dogs, at Barrington, Wednesday.

The Tinley Park German M. E. church will hold their annual Sunday School picnic June 30 in the Brandau grove.

Mr. Val Scheer who has been confined to his home by illness for a long time, is slightly improved.

The Tinley Park Fire department was called out Monday mid-night when a fire broke out in the farm house on the old Tom Fulton farm 155th and Central Ave. The building was very badly damaged. A family by the name of Davidson has been occupying the place.

The Tinley Park American Legion is making plans for the observance of Memorial Day.

The Niagara Girl's Club held a very beautiful bridal shower last Thursday evening in the home of their sponsor, "Aunt Trudie Swisher", in honor of Miss Helen Hirsch who will very soon become the bride of Mr. Jack Redman of Morgan Park.

A beautiful 'throne', made by festooning yards of white frilled crepe paper around an arm chair and attached to the chandelier, held the pretty little bride-to-be while she opened the many packages piled high on the table before her. A bevy of bright-eyed girls looked on.

The gifts were many and beautiful and Helen showed her appreciation by a little 'thank you' speech. After the last package was opened, each girl embroidered her own name on a small square of muslin which will be used as markers on dish towels.

At the climax of the evening, tea, cakes and candy were served. Miss Helen Rice, whose engagement to Mr. Dick Swisher was recently announced, poured. Mrs. Selby Hirsch, mother of the bride-to-be was a guest. The girls departed, wishing Helen much happiness on the sea of matrimony. Up to date, there has been four brides in this club, and we hear there will be another in a few days, and several of the girls are wearing sparklers on their left hand.

TINLEY PARK UNIT 615

AMERICAN LE. AUX.

Trudie Swisher, Pub. Ch.

"Join the ranks of those who have contributed to the welfare and happiness of many children. Wear a Poppy Saturday", so runs the plea of Mrs. Frank Baldwin, chairman, and her co-workers.

Tinley Park will pay honor to the World War dead tomorrow, Saturday, May 21st, by wearing the little red poppy of Flanders Fields. The day will be Poppy Day here. Poppies will be distributed on the streets by members of the Tinley Park American Legion Auxiliary No. 615.

Early tomorrow morning, the Poppy Day forces of the American Legion Auxiliary will go into action offering paper replicas of the wild poppies of France and Belgium to be worn in tribute to the war dead. No price will be asked for the flowers, but contributions will be received to help support the Legion and Auxiliary work for the disabled veterans, their families and the families of the dead.

The poppies have been made by disabled veterans who have been given much needed employment during the winter and spring months. Each flower has been shaped by hand by the disabled workers.

The Auxiliary is expecting the most general observance of Poppy Day since the custom of wearing poppies in remembrance of the dead was started at the close of the war. "Wear your symbol proudly. Saturday is the only day in the year when you can buy a memorial poppy."

Next meeting, social, at the home of Mrs. A. Mabey, 6928, 143rd Pl. Friday May 27th.

WHO IS MY NEIGHBOR?

"But he, willing to justify himself, said unto Jesus, And who is my neighbor?" Luke 10:29.

As we read the above mentioned text there opens up before us that wonderful parable of the Good Samaritan. What a wealth of spiritual joy we derive from this beautiful thought when we realize that our Lord spoke this parable that we also might receive spiritual benefit and to learn first of all to love God. To let Him alone have the pre-eminence in our lives then after that to love our neighbor as ourselves. While we wait upon the Lord from day to day let us show mercy to others and be a good neighbor to our brother man. There is a Christian welcome for you here.

The Cloddy Soil of 1938

Most farmers that worked in the fields before the snow of April 6 in this Will County region were surprised to note on re-entering the fields after they were again workable that the condition of the soil, with reference to its tilth or friability, had vastly changed to what they describe as tough, or technically known as cloddy.

Soil of this condition is difficult to work and has a very narrow range of moisture content within which it can be plowed or tilled without which it can be plowed or with out it drying into very cloddy condition. The resistance of these so-called tough soils to the processes of tillage, such as plowing and disking, is much increased over the resistance of the normally friable soil, and the presence of this soil condition is of considerable importance to those interested in the tillage of the soil as well as the growth of plants therein.

It is a big factor in tillage power cost, whether this be by mechanical implements such as tractors or by horses. It also increases the resistance to root penetration, making slower growth per unit of time and this means more difficulty for plant roots to get the needed plant food from the soil, because the roots can not caver as wide an average range. But most important of all is that soils in this tough or more difficult tillable condition have a much lower storage capacity for water. These factors we have mentioned constitute a highly undesirable condition, and one to be avoided if we could possibly so manage.

Consequently, an understanding of what causes and constitutes this undesirable soil change and condition is something we are interested in and would much like to have. It not only has a bearing on the amount of work we will have to render and do in order to ripen a crop, but on the measure and quality of the crop, each of which affect net income and all will agree that net income is the most important thing

in our farm activity, and those influences that can affect farm income are most worthy of study and consideration.

To get at the genesis, that is, to start at the beginning of this understanding, we must first appreciate that practically all soil particles are what we call electrolytic. They are capable of taking on an electrical charge. Most substances we handle in our farm activities are electrolytic, though there are a few things that are not and called electrolytes. These substances, because of their not being capable of taking an electrical charge, are used for insulators notably wood, rubber, cellulose, fibre, and which substances we also know as carbohydrates. Metals are electrolytic; soil particles are electrolytic; some having positive and some having negative electric charges.

In our association with different substances we seldom think of these as being electrolytic and taking electric charges, but if we are to study the physical properties of matter and the behavior of substances to each other, both physical and chemical, we cannot get far without a very basic consideration of their electrolytic nature.

Many of us have often had an appreciation of alkaline and acid substances, and have regarded alkalinity and acidity as conditions that were purely chemical applying largely to liquids or soluble substances, and not realizing that alkalinity was just another phase of substances that carried the positive charge, and acidity being otherwise known as negatively charged substances. Another name for alkaline materials is base of bases, and basicity is just another name for alkalinity. Some of the common electro positive or basic elements that we are familiar with are calcium, sodium, potassium, magnesium and barium, and the like, and when these elements are dominant in a substance they give such substance a positive charge or alkaline nature.

Among the electro negative elements are silicon, sulphur, fluorine, manganese and chlorine, and substances that they dominate in have a negative charge, and are

classed as acid. Where two elements, one negative and one positive, unite, as for instance sodium and chlorine to form common salt, the charge is neutral, yet the substance remains electrolytic although its negative and positive charges are balanced.

Our clay particles, which constitute the largest portions of our soils, are combinations of silica, which is acid, aluminum which acts either negative or positive, and bases such as calcium, magnesium and the like, which are alkaline and such when combined and in their normal balanced state are neutral. When hydrogen displaces the calcium the clay becomes acid. Clay is constituted largely of aluminous silicates combined with the bases, chiefly calcium, magnesium, potassium and sodium, in different proportions, and which basic elements exchange with each other and all of them with hydrogen. When hydrogen is exchanged we speak of it as displacing the basic substances, calcium, magnesium, potassium and sodium, and takes their place in the molecule formation. Hydrogen, however, gives substances it combines with the negative or acid charge. Hence, we see that when clay particles which formerly contained calcium, or any of the other basic elements, potassium, sodium, magnesium, as such are replaced with hydrogen, these particles have their electrolytic balance disturbed and shifted by such displacement from positive to negative polarity, and which is the same as changed from their alkaline or neutral condition to acidic.

Soil water, absorbing carbon dioxide, which is the common product of carbon breakdown in the soil, or rain water carrying carbon dioxide, becomes a weak acidic solution, the hydrogen of such weak carbonic acid being then capable of displacing (through exchange) the calcium or other basic elements, sodium, potassium or magnesium, and thus changing these clay soil particles from their positive or neutral condition to acidic. Their electrical charge after the hydrogen displacement has become negative.

Our rain water all carries some carbon dioxide. It also carries in

this region of Chicago smoke some weak sulphuric acid, also highly acidic, and the hydrogen of which even more readily exchanges with and displaces the calcium of the soil particles and this means makes them acid.

Another phase or important condition of soil particles is the formation of soil granules through particles of opposite electric charge coming together and balancing or neutralizing their electrical charges. When, however, soil particles lose their balance and the majority of them become of one polarity, either negative or positive (acidic or alkaline) then particles having the same charge or sign repel each other and the granules break up. When their balance is restored as in acid soils through return of basic elements (for instance, calcium through adding of limestone) where we have a proper balance, particles again attract each other, form granules, which granular condition of the soil is highly desirable, just as the dispersed condition of the soil through too many of its particles with same electrolytic charge, undesirable. Particles having the same charge repel each other, whereas particles having opposite signs attract each other. If, for instance, we had 100 people in a large room, each one of whom highly disliked every one else, each and every one of these people would try to keep away from those about them, and it would not be long before they would become about equally spaced from each other throughout the entire space of the room. This is the way that soil particles behave when they have the same electrolytic charge and in their thus moving away from each other to the greatest extent possible, they block and dissipate the normal spaces between soil particles, which we call interstices, and which blocking of soil particle spaces is the means of removing the water storage capacity of the soil, because such interstices constitute the water storage space that the soil may have.

Where we pour water on a tillable soil it readily soaks in. If we pour it on the fine particle highly dispersed clay it runs off the top. Where we have a highly dispersed clay and can add limestone, changing the electro-

lytic charge of some of the particles then granulation takes place. Soil granules are formed and the soil again becomes porous as the increased water storage capacity has increased friability, and we say its tilth is improved.

Now we appreciate that soil water charged with carbon dioxide constitutes a weak carbonic acid solution, also a water charged with sulphur dioxide, the product of smoke, also becomes a weak sulphurous or sulphuric acid solution. One feature of the carbonic acid solution is that the capacity of water to hold carbon dioxide increases with lowering of temperature. This is illustrated by a fresh drawn glass of soda water which is highly charged with carbon dioxide and is a high carbonic acid solution. When we place our hand on a glass of this cold, freshly drawn charged water, or otherwise warm it, the carbon dioxide is rapidly driven off. If it is kept cool it will retain the carbon dioxide to quite a degree. Hence, we need ice to run a soda fountain and we need ice to make beer retain its carbon dioxide charge.

Another feature of the lowering of water temperature is that the film of water held around the soil particle is thicker as the temperature becomes lower and is thickest at the melting point of ice. Now we recall April 8 snow and the cold, melting point temperature, snow water that it produced. This water carried both sulphur as weak sulphuric acid solution and carbon dioxide as a carbonic acid and was at a temperature where the water film was at its maximum. Hence, as the snow melted the water did not sink into the soil but remained at the surface until most of it was lost as run-off. Therefore, the surface soil was kept for a long period of time, practically a week, in an environment of acid snow water, which environment leached out through hydrogen displacement the calcium and magnesium of much of its aluminous silicates, changed the charge of many of the aluminous silicates, upset the soil particle neutrality balance, broke up granulation, and left the surface soil in a very definite relatively highly dispersed condition, with the soil particles repelling each other, destroying or dissipating interstices that normally constitute the water storage spaces between soil particles.

(Concluded next week.)

NEW LENOX

Dolores Walst

Miss Lois Lorenz who will be married on Saturday, June 4 at 2:30 p.m. in the Parsonage of the M. E. church to Chas. Werner, of Joliet was the guest of honor at a miscellaneous shower given recently by Mrs. Edie Smith, at the home of Mrs. Henry Lorenz.

Bunco was in play at four tables and prizes awarded to: Mrs. Geo. Evans and Mrs. Robt. Mogle of Joliet, who in turn, presented them to the honored guest. Decorations were carried out in the bride-to-be chosen colors, blue and white.

A luncheon was served at one long table following the games, with table decorations also being in blue and white.

Miss Lorenz received many lovely gifts.

Guests were: Mesdames Wm. Pennrose, Reice Trehanne, Phillip Werner, Agnes Anderson, Geo. Stegman, Geo. Werner, Geo. Evans, Fred Kurtz, Robt. Mogle, Edw. Vincent, all of Joliet, Clara Schmidt Alice Homerding, Emma Lorenz and Alma Lorenz of Mokena.

Mrs. Edna Collatz entertained members of the B Square club at her home last Wednesday afternoon. Airplane bunco was played at 3 tables, prizes being awarded to: Mrs. Octavia Pugh, Mrs. Merlin Embling and Mrs. Mary Bentley.

Refreshments were served following the games. Mrs. John Warring will entertain next Wednesday.

Mrs. Francis Tauber entertained the Afternoon Pinochle club at her home Thursday.

Mr. and Mrs. Lester Koerner and son Billy, Mr. and Mrs. Harry Kohlman and Mrs. Peter Sinclair spent all day Sunday in Rockford with Mr. and Mrs. Melvin Kohlman and son Richard.

Mr. and Mrs. Arvin Kohlman and children Marilyn Jean and Donald and Mr. Peter Johnson were Sunday guests of Mr. and Mrs. Eugene Johnson at their home in Chicago.

Mrs. Arvid Swanson has been ill at her home.

Graduation exercises for the 8th grade graduates of the New Lenox grade school will be held next Thursday night May 26 in the school auditorium.

The New Lenox Grade school picnic will be held on Friday May 27, at Nowell park, Joliet.

Ronald Gillette is quarantined with Measles at the home of his grandparents Mr. and Mr. Alfred Emily.

The Pure Milk Association of Will County will sponsor a public dance in the Colonial Ballroom this Friday night.

Mr. and Mrs. Norton Deal of Elwood were Sunday guests of Mr. and Mrs. A. W. Walsh.

Several folks from this vicinity attended the Motorcycle meet at the Redman farm in Wilmington, Sunday.

The Orland Park Legion Post 526 held their dedication last Sunday at Orland and presented a flag to the Palos Heights school at Harlem and 125 St. Douglas Brown and Herbert Senning New Lenox Band association members were the troop eters.

Bette Johnson of Spickard, Mo. is visiting here with Mrs. Octavia Pugh and Mr. and Mrs. Wm. Collatz.

Mr. Alfred Emly returned to his

home here Saturday after under going a major operation in Billings hospital in Chicago.

Mrs. Edw. Mangun, Mrs. Gaylord Mangun, Mrs. Jacob Hahn and Mrs. Fred Francis motored to Hammond, Ind. last Thursday where they were dinner guests in the home of Mr. and Mrs. Jacob Hahn, Jr. Mrs. Hahn is the former Miss Grace Specking of New Lenox.

On Friday night May 27 the New Lenox Band Parents Association will sponsor a dance and bingo party in the school gym.

Mr. and Mrs. Raymond Brown will entertain the YMC of the M. E. church at a party at their home Saturday night May 28.

On Decoration Day, May 30 the New Lenox Band will play here at the New Lenox school in the morning and play at Orland in the afternoon.

Mrs. Lloyd Pfaff and infant daughter Lynette A. have returned to their home from the hospital in Mobile, Alabama.

Mr. Jack Lannen Sr., is a patient in the Billings Memorial hospital, in Evanston.

Announcement has been made of the marriage of Miss Pearl Edwards to Wm. Ashenbrenner. The ceremony was performed in Valparaiso, Ind. on Saturday May 14 at 11 o'clock. Miss Gedaldine Wilkens and Oliver Ashenbrenner son of Mr. Ashenbrenner were the attendants.

The bride wore a white crepe dress with matching accessories, and Mill Wilkens dress was of yellow crepe. She also had matching accessories. Immediately after the ceremony the bridal party motored to Chicago where a wedding dinner was served to 11 guests at the home Mr. and Mrs. Ernest Burke and family sister and brother-in-law of Mr. Ashenbrenner.

Mr. and Mrs. Ashenbrenner spent a few days in Chicago and are now at home to their friends in the Bethel flat.

On last Thursday evening, members of the Happy Ten club entertained in honor of Miss Lois Lorenz at a bridal shower in the home of Mrs. Reece Trehanne, Joliet.

Bunco was played and prizes awarded to Mrs. Minnie Johnson, and Mrs. Dorothy Brockway who presented them to the bride-to-be.

A gift was presented to Miss Lorenz from the group. A luncheon was served at one long table covered with a lace cloth and centered with a large cake, decorated with a miniature bride and groom. Guests were: Mesdames, Minnie Johnson, Dorothy Brockway, Emma Pennrose Hazel Trehanne, Bertha Jones, Agnes Anderson, Carrie Werner, Alice Carter and the honored guest.

Mrs. Earl Ullrich and Miss Lois Miller will entertain in honor of Miss Lorenz next week, while Miss Audrey Hoffman is entertaining at a miscellaneous shower in her home May 22. Friday Miss Evelyn Krenz will honor her at a luncheon in her home in Joliet.

The Entre-Nous club met Wednesday afternoon at the home of Mrs. Walter Senning. Airplane bunco was played and prizes went to Mrs. Elis O'Daniel, Mrs. Dewey Moore, Mrs. Walter Rheinhardt. Mrs. O'Daniel will entertain in two weeks.

Mrs. James Gurley opened her home Wednesday afternoon to the Womens club at their May meeting. Assisting hostesses were Mrs. A. R. Kercheval, Mrs. Mona Wentzel. The program committee in charge was Mrs. Edw. Mangun, Mrs. Wm. Kay, Mrs. Louise Pelkey.

Mr. and Mrs. Fred Rosencrantz, have returned to their home in Spencer, Iowa after spending a week here with their cousin's Lester and Edward Mangun and families.

The Frankfort-New Lenox 4-H club met Tuesday night at their regular monthly meeting in Summit Hill school.

Mrs. Edw. Osmus entertained the St. Jude's Womens club in her home Tuesday night.

Miss LuElla Darling and nephew, Ronald Bradley of Oak Park were week end guests of Mr. and Mrs. Melvin Whitaker.

Mr. and Mrs. Maynard Brockway and son Wm. of Tulsa, Okla., are enjoying a two weeks vacation here in the home of Mrs. Brockman's mother, Mrs. Elsa McClure.

Miss Lois Lorenz and Chas. Werner visited Miss Evelyn Krenz in Joliet last Tuesday.

The annual Mother-Daughter Banquet will be sponsored by the Ladies Aid at the M. E. church, on Friday night in the church dining room.

Mrs. Arthur Papke will have charge and Mrs. J. C. Brisbane will give the welcome to the daughters. Mrs. Ethel Richardson head of the Joliet Township High school Art dept., a delightful and inspiring lecturer, will talk on Religion in Art. Miss Louise Storm, musical supervisor of the Junior High, at the A. O. Marshall school also a soloist in the Richards St. M. E. church will be guest soloist.

A gift will be presented to the youngest mother and the Oldest mother in attendance.

Serving will begin promptly at 7 o'clock, Daylight Saving Time. The dinner to be prepared by the Ladies Aid and served by the men. Tickets may be secured from Mrs. Archie Corp or any member of her committee.

Mr. Fred Alden of Los Angeles, Cal. has arrived at the home of his daughter and son-in-law and family, Mr. and Mrs. Herbert Senning where he will spend the summer.

Mrs. A. O. Bruns who has been quite seriously ill the past month at her home is improving.

Miss Gladys Hollowell of Chicago is spending a few days here with her sister and brother-in-law, Mr. and Mrs. Geo. Marshall.

- F-114 EXCLUSIVE LOW-PRESSURE REFRIGERANT.
- REMOVABLE BAR-TYPE SHELVES.
- SLIDING MOISTURE-SEAL HYDRATOR.
- THERMO-SEALED ALL-STEEL CABINET CONSTRUCTION.
- STAINLESS FOOD COMPARTMENT.

A BARGAIN AT THE PRICE! It Saves on Current... Food... Ice... and Upkeep, Too!

Here's a big family-size, low-price refrigerator—a special bargain in refrigeration service that gives you every cent of your money's worth in efficient food-keeping. In the first place, the food-safety indicator assures you that all your food is always safe. Then, too, because there's plenty of shelf space, you can buy in large quantities and save on food costs. The "Double-Easy" Quickube Trays release cubes with a simple lift of a lever—two or a trayful at a time—help save on ice because there's no melting waste.

And don't forget the current-saving

meter-miser—the exclusive Frigidaire freezing unit so quiet you can hardly hear it run! This year's meter-miser saves up to 25% more on current than last year's! It's completely sealed in for long, economical, trouble-free service. The General Motors name-plate is your guarantee of quality workmanship that means dependable refrigeration. The Frigidaire 5-Year Protection Plan on the sealed-in mechanism protects you against service expense.

Now is the time to buy! Come in TODAY and see this beautiful, roomy, efficient Frigidaire on display.

To cover interest and other costs, a somewhat higher price is charged for Refrigerators sold on deferred payments

Other dealers are also offering good values in Electric Refrigerators

ORLAND PARK

Mr. and Mrs. N. Wilson of Whiting, Ind., were guests in the home of Mr. and Mrs. Buge Tuesday.

The Orland Park public school will hold its commencement exercises June 1st in the school auditorium. On June 3rd the annual school picnic will be held in Palos Park.

Mrs. Adeline Goldberg, sister of Mrs. John Helenhouse of Orland Park, died in Chicago Monday.

The village board will meet next Monday night.

Miss McMahon country life superintendent visited the Orland Park school Tuesday.

Benjamin Yunker and Marie Jungles, both of Orland Park were united in marriage in the St. John Evangelical church in Mokena Wednesday afternoon.

Orland is an old town in years, but not in ways. It has gas, electric light and telephone service, bus and railroad transportation. It is a thriving community free from debt. There are officers of the law to protect our lives and property, but haven't we forgotten the youth?

In their effort to push the town ahead, the people of Orland have overlooked the necessity of a gymnasium; a gymnasium with the facilities for playing basketball, holding dances and giving plays or supplying other forms of entertainment.

Such a community center would add to the pride and prestige of Orland as well as tend to discourage child delinquency and recurrence of pitiable crimes as the arson incident in Palos of a few weeks ago.

At present the Government is appropriating funds for just such projects in Frankfort and Palos. Why should Orland take a back seat; let's act now while the Government is still willing to donate half the expenses.

William Elkin, the tall redheaded scholar thumbed his way here or a short visit early this week. He left for his home in New Castle, Ind. Wednesday.

Mrs. David Kruegers' sister from Muskegon, Michigan is here on a visit.

The Juvenile's entertained their mothers at a Mother's Day program this week at Creer's hall.

The Boy Scout Troop's good deed last week was cutting the grass in

Orland's Park. They are to be commended for their good work.

Keane Avenue from 143rd St. to 159th St. will be open early next week.

Harold Helenhouse is driving his own '35 Oldsmobile.

Rain and wet grounds necessitated the postponement of all the Southwest Suburban league baseball games last Sunday. The schedule of games will be followed as planned and the rained out games will be played at a later date. Orland plays Evergreen Park here this Sunday. The team would like to see as large a turnout as possible.

ORLAND SCHOOL NEWS

The English 1 class has begun the study of letter writing.

Art class has been sketching ships of various types, and doing some water-color scenes of sailboats.

English 2 class has challenged the freshmen to a debate, which they will hold next week.

MARLEY

MISS FRANCIS GILLETTE

Next Thursday, May 26, the missionary ladies will hold their missionary meeting in the home of Mrs. A. R. Kercheval. Assisting hostesses will be Mrs. Herbert Corp Mrs. Dean McClintock, Mrs. Theo. Rapson, and Mrs. Alfred Sproat.

Current events were given by Mrs. Carrie Bush which was followed by the Good Cheer fund.

The following members were elected to hold office for the new club year. Mrs. Bess Bush, Pres., Mrs. Louise Storm, vice pres., Miss Eleanor Sabin, Secretary, Treasurer.

The program that followed included the following review and articles: "Pigs in Pigs", Mrs. Virginia Sass, "Speech is Golden", Mrs. Sarah Gorham, "Good Medical Service" Miss Gladys Nelson, "The

Seeing Eye Dog", Mrs. Edna Cutler.

Roll call was responded to by the members citing their ideas of Where Happiness is Found.

A plant and seed exchange was a feature of the meeting. At the close of the meeting refreshments were served by the hostess.

Mr. Milton Loucks accompanied Mr. and Mrs. John Loucks and family of Joliet to Gary, Ind., and spent the day with his daughter Mrs. Fred Brickert and family.

Jackie Bush of Joliet spent the week end with his grandparents, Mr. and Mrs. G. W. Bush.

Mr. and Mrs. Will Storm and family of DeKalb and Mr. Fred McKennon of Canada visited Sunday in the home of Mrs. Elizabeth and Miss Agnes Haley.

Howard Hendorf is ill in his home Raymond Mund and Charles Barnes of Harvey spent Friday in the Mervin Moore home.

Glenn Peterson spent Monday in Chicago.

Mr. and Mrs. Fred Holm of Worth and Mr. and Mrs. James Hill and children of Beverly Hills. visited Sunday with relatives in Marley.

Mr. and Mrs. Jesse Marshall and Mr. and Mrs. A. J. Cleveland called on the latter's brother, Martin Betenhausen at his home in Lemont Tuesday evening.

Mrs. Lydia Kase of Oak Park spent the week end at the Wright Woods home.

Mr. Thos. Sproat is spending this week at the home of Mr. and Mrs. Edw. Tatro, Plainfield Road.

Mr. Earle Cuttler of Detroit, Mich., was stricken with appendicitis on Sunday evening. He was rushed by plane from Detroit to the Silver Cross hospital, Joliet where he underwent an operation a few hours later.

HOMER

Mr. and Mrs. Edw. Beverly and daughter Patsy of Joliet were Sunday guests at the C. G. Rowley home. Mrs. Beverly was the former Miss Dorothea Rowley.

The committee in charge of the Memorial Day services at the Brooks cemetery met and planned a fine service which will be held at the cemetery on Monday afternoon May 30. The committee consists of Mr. and Mrs. Ross White, Mr. and Mrs. Adam Bodenschantz and Mr. and Mrs. Russel Myrick.

The committee in charge of the services at the church met Saturday night and planned a program to be held at the church Sunday afternoon, May 29 at 2 o'clock. This committee consists of Mr. Frank Savage, Mr. and Mrs. Harper Reid, Mr. and Mrs. Geo. Milton.

Mr. and Mrs. A. E. Hewit and Mr. and Mrs. Harry Ayers attended the Safety First party of Corn Products Refinery Co. of Argo, Ill., at the White City ballroom in Chicago Thursday evening.

Tryouts for the WLS barn dance given under the auspices of the Homer Dramatic club and Pilgrim Fellowship group of the Homer Congregational church are being held this week and the show will be held at the Lockport highschool on May 25, 26 and 27.

Mr. and Mrs. Leroy Colley of Lemont visited in the John Brier home last week.

Mrs. Harold Tilsey, Mrs. Raymond Lister and Mrs. John Homerding spent Thursday in Chicago.

Mr. and Mrs. Joseph Sajack of North Chicago were guests in the home of Mr. and Mrs. Andrew Braasch over the week end.

Mrs. Henry Holm is suffering from a lame knee.

H. B. Reed underwent a minor operation in Silver Cross hospital, Joliet, Saturday.

Dr. and Mrs. Rooth have returned home after spending several weeks in Missouri.

Mr. and Mrs. A. C. Haley were guests in the Richard Gorham home Sunday.

The newly-organized Rural teachers Association of Will county held its final session for this school year Friday night at the Woodruff hotel, with a dinner meeting.

Claude E. Vick, assistant superintendent of public education was the speaker of the evening. Teachers attending from this vicinity wert: Misses Evelyn Kopleman, Grace Jessing, Helen Nemeth, and Mrs. Randall Storm.

Complimentary to Fred Kopleman's birthday anniversary Monday night a group of 25 friends and relatives surprised him at his home. Cards and guessing games were the diversion after which refreshments were served.

Wednesday afternoon Mrs. Guy Bump and Mrs. Gordon Reid were co-hostess to 33 members and friends of the Woman's Community club at the home of the former. The program consisted of a paper "Equipped for Living", by Mrs. Fred Kopleman, "Personalities of Note; Dr. Carter", by Mrs. Reed Burch, "The Pringles go Red" by Mrs. Frank Rowley; "How Musical Are You" by Mrs. Grace Piggott and "Have you Paid Your Doctor", by Mrs. Walter Paddock. An amateur hour followed which was very interesting. Refreshments followed.

Miss Marie Konieck, Miss June Morris, Elwyn Cagwin, Joseph Brankey, Earl Kopleman and Robt. Fox attended the Junior-Senior prom at Glen Eagle country club in Lemont township last Saturday night.

Rev. Hastings filled the pulpit at the Homer church Sunday morning. Miss June Milton furnished the special musical number. Next Sunday the Sunday school will have charge.

Mrs. John Homerding will entertain at her home in Palos park Wednesday afternoon, complimentary

ary to her sister Miss Veryl Lister who will become the bride of Mr. Eugene Grace of Palos Park the later part of the month.

Mrs. Walter Haley and daughter Barbara attended a Mother and Daughter banquet at the German Lutheran church in Monee, Monday evening.

Mr. and Mrs. Claude Colegrove entertained in honor of their son, Claude O. Colegrove's sixth birthday anniversary Tuesday evening. Group singing followed by a short devotional service led by the Rev. Geo. Blinn of Mt. Greenwood was enjoyed. The dining room was prettily decorated and a beautiful large birthday cake formed the centerpiece on the table.

Late in the evening refreshments were served by Mrs. Colegrove assisted by Mrs. Harold Tilsey and Mrs. John Brier.

The guest list included Mr. and Mrs. Fred Freis and daughter Miss Margaret and Betty and sons Geo., Leonard and Bob; Mr. and Mrs. Roy Colley and son Lee, Mrs. Roy Miller and daughter Carroll all of Lemont, Miss Margaret Connors of Lockport, Mr. and Mrs. Edwin Hank and family, Mrs. Harold Tilsey and son Wm., Mrs. John Brier and son Lawrence and little Miss Caralee Colegrove all of Homer, Mr. and Mrs. Blinn of Mt. Greenwood and Miss Minnie Langdale of Chicago. Claude received many pretty gifts.

PALOS PARK

The Literary Discussion group met in the WPA public library last Thursday afternoon. Mrs. A. Lord led the discussion on "Rains Came."

Louise Kriz will entertain the Palos Juniors this evening in her home at 89th and Ridge Aves., at 8 o'clock. Mrs. O. W. Johnson, 123rd St., and 87th Ave., entertained the Woman's Aid society of the Palos Park Community church in her home May 10.

The Southwest Schools Athletic Association will play two games this afternoon at 3:30 o'clock.

The Stickney team will play the Worth team at the Stickney school in Oak Lawn and the Orland team will play the Palos team at Orland.

The Palos Park people are showing a fine community spirit by taking advantage of National Air Mail Week. Pilot Bernard Schofield, a local boy was appointed to fly the mail. Postmistress, Mrs. E. Saunders; Mayor, J. W. Mahaffay; Mrs. G. E. Ward and Mrs. H. Crawley are members of the committee. The local stamp with the imprint of an Oak tree was stamped on all the air mail being dispatched.

The people of Palos Park extend their sympathy to the Flavin family in the death of Mr. Emmitt Flavin.

FRANKFORT

Mrs. Herbert Kohlhaugen

The Home Bureau meeting held May 11 in the Frankfort Hall was well attended. The purpose of this meeting was to stimulate interest among the women of Will County in the field of Farm Bureau work. They have at present about 325 members and to organize, 500 are needed. Therefore they are trying very hard to reach this goal. A very interesting talk was enjoyed by all present. Women from all the neighboring communities were present.

A daughter was born May 15 in Silver Cross hospital to Mr. and Mrs. Walden Larson. She will be a playmate to little Sally.

Mr. and Mrs. Maples and son returned Sunday to their home in Elwood, Ind., after spending a short time in the Chas. Pfaff Jr., home.

Mr. and Mrs. Albert Minger, Mrs. Elizabeth Harnack and son Elmer and Mrs. Augusta Weber spent Sunday in the Roy Minger home in Joliet.

Last Sunday a large number of Frankfort citizens were thrilled by the displaying of the new fire truck. It was taken down to the creek but due to the unfavorable weather it was impossible to make a demonstration. Better luck next time.

The Amite Sewing Club will be entertained by Mrs. Geo. Heisner in her home May 24th.

Rev. G. S. Gerhold and Mr. Ferdinand Scheer attended a conference in Pekin, Ill., Tuesday, Wednesday and Thursday.

The Young People of St. Peter's Evangelical church will hold a social meeting in the church tonight, Friday May 20.

The Ladies Aid of St. Peter Ev. church will meet Thursday May 26 at 3 o'clock. They will serve supper on Memorial day, May 30.

The measles epidemic has been halted somewhat and the children are gradually returning to school.

The condition of Mr. Max Haas, who has been quite ill is somewhat improved.

"Tin Can" From Canisters

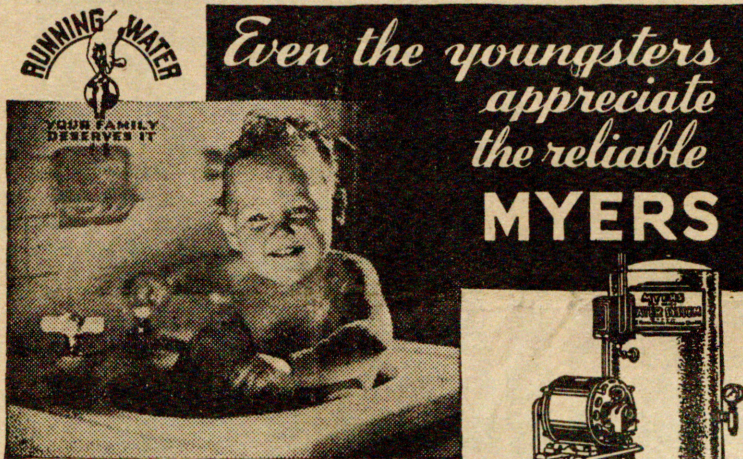

The name "tin can" is derived from the term, "tin cannisters," by which they were known in England during the latter part of the Nineteenth century.

I, FRANKLIN E. LOEBE, Treasurer of the Village of Orland Park, Illinois, do solemnly swear, or affirm, that the foregoing statement is correct and true to the best of my knowledge and belief.

Dated this 17th day of May, 1938.

FRANKLIN E. LOEBE,
Treasurer of Orland Park

Subscribed and sworn to before me this 17th day of May, A. D. 1938.

GEORGE E. GEE, Notary Public.

Emergency Crop
And Feed Loan
Press Release

Emergency crop and feed loans are available to farmers unable to obtain credit from any other source who are in need of immediate assistance in the financing of their 1938 crops or in the feeding of their livestock.

Acton A. Shelton, local Field Supervisor, states that applications are now being taken at Room 211, Post Office, Joliet, Ill. Farmers in need of this assistance should apply on Monday Tuesday or Saturday.

The amount which may be loaned to any one farmer in 1938 may not exceed \$400 and will be limited to the farmer's immediate and actual cash needs.

Farmers who can obtain the funds they need from an individual, bank, Production Credit Association, or other concern are not eligible for crop and feed loans from the Emergency Crop and Feed Loan Section of the Farm Credit Administration. These loans are not available to standard rehabilitation clients whose current needs are provided for by the Farm Security Administration, formerly known as the Resettlement Administration.

As in the past, the security taken for these loans is a first lien on the entire crop to be financed, or a first lien on the livestock, if the money borrowed is to be used to purchase or produce feed for livestock. All persons having an interest in, or lien against the security of the loan are required to waive their claims in favor of the lien of the Governor Farm Credit Administration until the loan is paid.

The closing date on these loans will be May 31.

Checks representing the funds of approved loans will be mailed from the Emergency Crop and Feed Loan Office at 315 Pine St., St. Louis, Mo.

Last Sunday evening May 21st, a miscellaneous bridal shower was held in the Fred Yunker home in honor of Miss Eleanor Lauffer who will become the bride of Mr. Elmer Bormet on May 21st. A toy wagon decorated in pink and blue and loaded with many beautiful gifts was presented the honored guest. The wagon was drawn by Dorothy Yunker and Elda Mae Schult.

Bunco was played and prizes were awarded to Mrs. Frank Schult, Miss Lucille Lauffer, Mrs. Ray Larimore, Mrs. Chas. Schult and Mrs. Geo. Schilling who in turn presented them to the bride-to-be. Lunch was served at midnight to seventy guests by the hostesses, Mrs. Fred Yunker and Mrs. Harold Schult.

Mrs. Richard Hensel returned to her home last Thursday following a goitre operation performed in Chicago recently.

Mrs. Mary Marti of Mokena received word of the death of her daughter, Mrs. Adeline Goldberg in Chicago. She buried in that city Thursday.

Mr. and Mrs. John Marti were dinner guests last Sunday of Theta Hi Fraternity while visiting with Edward Nelson, a student at the University of Illinois.

In the news item appearing in last week's Mokena column, telling of the farewell party given by Mrs. Frank Hirsch Jr., in honor of her sister, Mrs. Hattie Stanley, the handkerchief shower was a surprise to Mrs. Stanley planned by the guests alone.

Plans are being perfected by the committees in charge, for the Mothers-Daughters banquet which will be held in St. John Evangelical church May 26th at seven p. m. Everyone is welcome. Tickets can be purchased from Mrs. A. Braun. Make your reservations early.

A cooking demonstration will be held in St. John's Ev. church Tuesday June 7 by the Public Service Company. This demonstration is free to the public and everybody is invited to attend it. Prizes will be given.

The Mokena Garden Club will hold a pot luck dinner in the home of Mrs. Rabinov on Monday June 6 instead of Tuesday June 7th.

Mrs. Kate Cooper visited Tuesday afternoon with Mrs. Ben Sayers in her home in Orland Tuesday afternoon.

Mrs. Harold Spiess was a patient in Billings hospital this week for several days.

Mrs. L. G. Bruder, Mrs. Rene Guindon, Mrs. Wm. Semmler and Mrs. Hugh Peadmoe of Joliet attended the spring luncheon of the Tinley Park Woman's Club held at Mickelberry's, 95th street and Western avenue, Wednesday afternoon.

Prof. and Mrs. W. E. McCleary and daughter of DeKalb, spent Sunday in the Albert Cappel home. Other guests were Mr. and Mrs. Earl Ferguson of Joliet.

Mr. and Mrs. Fred Cappel and daughter Helen and motored to Ann Arbor, Mich., Sunday and spent the day with relatives.

NEW LENOX

The second Sewing meeting of the Sunny circle girls 4-H club was held recently in the home of Mrs. Steven Sargent. Miss Lois Mae Sargent, pres. of the club, presided at the business session. She appointed Mary Ann Allen as project chairman. Part of the time was spent discussing new project books of the year.

Mrs. Geo. Marshall entertained the Afternoon club at her home.

The afternoon was spent informally and a buffet luncheon was served at 4 o'clock. Those present were: Mesdames: Frank Valey, A. Steinbach, Harold Cutler, Alfred Marti, Melvin Whitaker, Hubert Ewing, Ray Barnes and Mrs. Marshall.

Mr. Frederick Embling, 81 years of age passed away at the home of his daughter Mrs. Chas. Stoltz, in Joliet, Saturday night at 11 o'clock. He is survived by 2 daughters, Mrs. Katherine Isberg, and Mrs. Stoltz. 3 sons, John, James and Dennis, and 6 grand children. Funeral services were held from the O'Neil Mortuary Tuesday at 2:30 o'clock. Rev. Wm. Ellis officiated. Burial was in Elmhurst cemetery.

All the pupils are busy reviewing their work these days preparing for the final examination.

Junior High room.

Miss Grace Moriarty visited our room one day last week.

High School room

Preparations are being made for the Baccalaureate and Commencement exercises to be held May 29 and June 1. Some excellent pictures of the interior of the school building and of the two basketball teams were taken by a Joliet photographer. Final examinations will be held next week.

LINCOLN ESTATES

Mrs. R. Fisher.

Miss Vilian Gill and Miss Alice Wolff of Chicago spent the weekend with Miss Vivians' parents, Mr. and Mrs. Ed Gill.

Mr. C. M. Sigl former resident of Ashland, Virginia, came Saturday to make his home with his daughter, Mrs. Edw. Hermanek here in Lincoln Estates. We are glad to welcome Mr. Sigl to Lincoln Estates

In spite of the downpour Sunday, we had 32 out to Sunday School in the Baptist Gospel Mission in the

afternoon. The Sunday School is growing in number and spirit.

Those who spent Sunday in the home of Mr. and Mrs. Ed Gill were as follows: Mrs. Kate Kilmartin daughter Rita, Mrs. Mary Maloney and Miss Rita Lungvon of Chicago.

Those who helped Mr. and Mrs. Edw. Hermanek celebrate the home coming of Mrs. Hermaneks father were Mr. and Mrs. Joe Stepanek of Chicago, Miss Helen Pitelka and Mrs. J. Pitelka and son Jimmie of Berwyn, Ill.

Mr. and Mrs. C. J. Fisher and son Donald returned home last week after spending a short time with his mother in the southern part of the

state.

Mr. and Mrs. James Hunter and son Donald, Mrs. H. Melville and Mrs. Frank Kovar and two children attended the Sunday evening services in Chicago Heights.

Dr. and Mrs. Weir were in Chicago one day last week.

The spring rains are good for the gardens. They sure are appreciated in Lincoln Estates.

The Laurentian Mountains

The Laurentian mountains are older than either the Rockies or the Himalayas, cover more than nine-tenths of the province of Quebec. Their height varies little more than from 1,000 to 1,500 feet.

SPEED SPECTACLE OF 500-MILE RACE
CAN'T BE 'SELLOUT' DESPITE CROWDS

The field coming around a turn as the infield crowd sees it. Below, a portion of the parked cars at the last race.

INDIANAPOLIS, Ind. — It's the boast of the Indianapolis Motor Speedway that there cannot be a sellout, though the 500-mile race May 30th undoubtedly will again attract the largest attendance of any sporting event in America.

The secret behind this, as revealed by T. E. Myers, general manager, is that there are thousands of free parking spaces available in the infield.

"Even with 65,000 spectators seated in the nine grandstands and three infield bleacher stands," he says, "there is a huge surplus of parking space in the infield. Behind the pits along the main straightaway, there

are 4,000 parking spaces for cars which are reserved, all the rest are free. On the north and south turns, and along the back stretch there is a mile and a half of free parking space. It is estimated that 75,000 cars could be accommodated in the infield, though there is never anywhere near that number, and figuring four persons to a car 300,000 could see the race from those points."

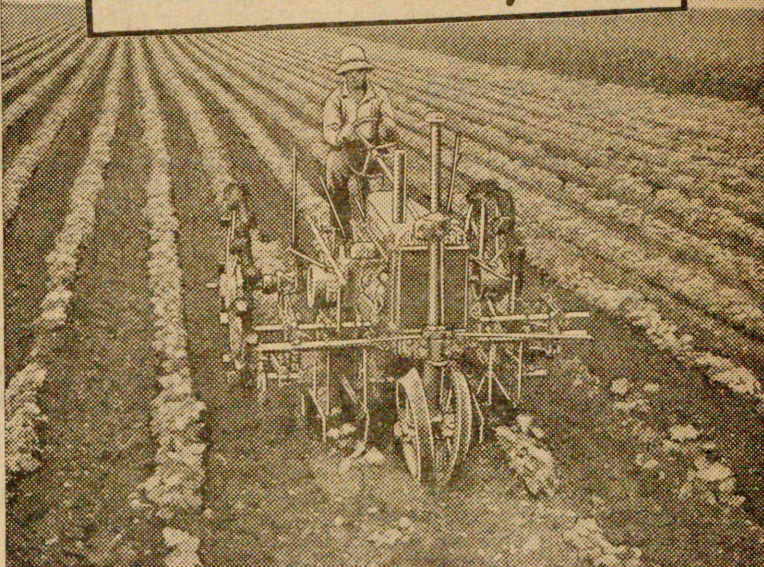

That would give Indianapolis 365,000 persons. The attendance last year was nowhere near that figure although the largest crowd in history, and the crowd was easily handled in the 15 motor gates and the 25 foot gates, all of which open at six

o'clock the morning of the race. By the time the race starts at 10 o'clock, the crowd has been sped through completely.

Those in the infield make Race Day a picnic. They enjoy the pre-race ceremonies, the parade, band concert, bomb salutes, and then see the thrilling start. After watching the race until noon, they open their luncheon hampers and enjoy a repast.

By the time the most thrilling sport event in the world is approaching its final stages, the vast crowd is in rare good humor, and enjoying every moment of the speed battle. So Indianapolis has been since 1911, and its crowd story will be written as of old on Decoration Day.

For Fast, Low-Cost Cultivating

John Deere Tractor Cultivators

The time you can save with a John Deere on the cultivating job can be turned into money-making efforts somewhere else. Keep ahead of the weeds and the weather—get around faster and easier with a John Deere General Purpose Tractor and a two-row or four-row cultivator. No other tractor cultivating outfit gives you such a good view of your work. It has ample clearance for tall crops, and a roomy platform when you want to stand. Wheel tread adjustable 56 to 84 inches to fit row spacing. Hydraulic power lift. Quick, positive steering—individual braking of rear tractor wheels. Four forward speeds—the right speed at the right time. Come in and see this cost-reducing equipment.

CHAPTER VIII—Continued

"No matter. I am free." And she was free! Her own plane, her own life!

"So, now," he was saying gravely, "you will fly."

"Now I will fly."

"That is good."

They met the car from Danavale and Sarah Lynn jumped out and ran to explain. "Oh, you've brought Lightning!"

"We had to," Lynn Dana told her. "She was having refined hysterics. Better take her along. I'll telephone your mother." They waited, watching contentedly, until the fliers were out of sight.

Lightning crouched at Sarah Lynn's feet, making small sounds. "Mountains I like; large trees I like," Gunnar said, coming out of one silence and going into another. She nodded without speaking, and the companionable stillness held, mile on mounting mile.

Redwoods were outlined against the heavy blue sky.

"So, now you fly," Gunnar said again, seriously. "So, now, also, we are friends?"

They were now friends, she told him with a gravity matching his own, and comfortable cloaks of silence enveloped them again.

But a sound of pure astonishment escaped him at sight of the first forest giant.

"But—I have never believed it could be so!"

"Wait!" she pledged him happily. "That is only the prelude to the great ones."

He settled back in his seat with a long, relaxing sigh of contentment. "Large trees I like," he said, "and mountains and the sea, and songs and books; most I like the sky. Also I like a friend."

Sarah Lynn leaned over Lightning and gave her a hug. "You have one good American friend already. My Uncle Lynn says Conrad Jordan is the best possible person in this country for you to know. He says he's everything—a fine flier, a scholar, a sportsman."

"Also, he makes good music."

"Oh? I didn't know that."

"But yes. At his lodge on the Lake of Tahoe, many nights I have sat by the fire, wind and rain sounding, to listen to his deep thoughts from the piano." He gave generous gangway to a truck. "You shall hear. I will bring you there one day."

She did not answer, unless, indeed, he heard the thumping beat of her heart. She thought he must. It was a relief to reach the park and get out of the car, and to watch his face as they went walking into the presence of the Big Trees.

The effect upon him was satisfying. He would never be ecstatic or explosive, she knew, but all the appreciation and emotion which others expelled went into the quality of his looking, his silence. He stepped softly, as if he found himself in a cathedral, and his face, under the thatch of unsalted-butter-colored hair, might have been the earnest countenance of a Boy Scout bent upon good deeds.

Gunnar was looking only at the trees, so Sarah Lynn was able to look at him. He seemed younger somehow; his austerity was giving way to a little-boy-like wonder, with an interlining of wistfulness.

"So, now, you fly," he began as before. "So, now, we are friends."

"Yes," she told him contentedly.

"Friends," he repeated, but there was clearly more on his mind. "Fliers," he stated with authority, "shall not marry."

"No?"

"No."

"No," she agreed docilely.

Then they walked on, and he was quite evidently relieved at having settled an important matter swiftly and finally. She would be a flier, and they would be friends, and fliers did not marry.

Newspaper publicity broke out like a rash.

Miss Ethelinda Pennington proved to be putty in the hands of bright young reporters and bland feature-writers from San Jose and San Francisco papers. Quickly and painlessly they extracted a vivid picture of Sarah Lynn's odd childhood with many quaint details as to the mornings in the meadow and her preoccupation with ladybugs, and departed jubilantly for their typewriters before she was well out of the ether.

Ladybug was a rich theme and they rang endless changes upon it. Many pages went from the wheeled-chair to Sally Ann in Cornwall.

"There was an epic battle between Cousin Adelaide, big and beautiful and lyrically maternal, and the little old matriarch, small and mighty and mad. 'I'm sorry for you, Addie,' she said, 'but you better make up your mind to it. You're worse off than the hen that hatched ducks; you got an eagle, and I guess maybe it's harder to watch 'em fly than swim!'"

"We bought her that flying-ma-

chine, Lynn and me, and we're paying a young feller to teach her to run it. Didn't I tell you, first time ever I laid eyes on the young-one? I knew right off she was one a' the dark ones."

"Then she went close and peered up at her and shook a parchment finger in her face. 'And you listen to me, Addie, for it's the gospel truth. She's more my child than she is yours, for all you borne her and there's worse than seventy years between us!'"

Sarah Lynn was sincerely sorry for her mother's martyrdom, but life contained for her now only two shining and splendid facts—flying and Gunnar Thorwald: when other subjects came into her mind it was like pouring fluids into an already brimming bowl; they simply ran over and off.

Whenever she flew with Gunnar Thorwald, Sarah Lynn sat in silence watching his sure hands, looking,

and bread, honey," he ordered briefly.

The woman slammed down their plates and cups and Gunnar was buttering a thick slice of bread.

Their taxi-driver had risen and slouched into the back room, and now a little man in an enveloping apron came out. He had scared eyes and an unimportant chin, and he was staring at them. He spoke over his shoulder. "Honest? You ain't stringin' me, Nick?"

The woman said something to him and he popped out of sight like a gopher into its hole, and the taxi-driver came back, grinning.

It was the usual thing to be recognized. Almost everywhere they went someone knew Gunnar Thorwald at once, and then there would be nudges and whispers.

Other customers came in. The woman served them truculently. Her husband came edging out of the kitchen again to stare at Gunnar and Sarah Lynn. He had a

ing at the counter, and stuck his head into the steam and stench.

"So it interests you—flying?"

"Interests—say, boy! I read every scrap I can lay hands on, and I see every movie that's got flying in it, and when I stand here, hashin' and hear 'em go by in the sky—" he stopped, gulping, his Adam's apple moving convulsively in his stringy throat.

The wife came back with a pile of soiled plates and pushed rudely past the flier. "Pop, you tend to business! Tea-bone and country fry!"

The Norwegian looked through and beyond her. "Yourself would wish to fly?"

The little man put down a long pronged fork and clasped small pudgy hands with broken and black-rimmed nails. "Just once—before I die—I wouldn't ast nothin' more. 'Come, then!'"

It was all done in a flash. The aviator's arm which seemed to lift

When they reached the field Gunnar placed a friendly arm about the man. "Still game?" he asked.

learning, remembering, and stored up questions for the earth.

"I have the wish to see your Golden Gate in sunset," he said one day.

They were driving to the landing field. "Gunnar, I want to come down in a parachute," Sarah Lynn said.

"Yes. But not yet. There is for you much more learning."

"Of course. After I can really fly. It must be the most satisfying thing in the world and not so terribly hard. Just wait and count ten before you pull the string."

"That is, you think, so simple?"

She shivered happily. "It must be the most gloriously terrifying thing—just bailing out into the blue beyond with a silly trick parasol over you! But I want to do it, Gunnar."

He nodded. "You shall do it. That I promise. From my plane. But—when I say you are ready."

"Yes." She settled back in her seat, entirely content.

Lynn Dana had written Sally Ann the night before: "As to your question—I don't know. Our queer card one, beyond all possibility of a doubt, quite literally worships the air he flies in. As for the lad—he approves her utterly for her courage and cleverness, but he's flint-hard and bat-blind. If her heart's on her sleeve, he doesn't see it, and she has a nice young dignity and reticence."

Something did not quite suit Gunnar in Hermod's rhythm as they flew up the valley, and they came down at Oakland before crossing the bay. It needed only a minor adjustment, but would take a little time.

"Tea, while we wait," the ace said. He hailed a taxi and put her in it, and they drove a couple of blocks. "Here! This will do!"

It was a shabby little eating-house with a menu written in chalk on a blackboard at the door.

"Wait!" Gunnar directed the taxi-driver.

"Sure," he said amiably. "Comin' in myself. 'Lo, Lena!' he greeted a big-busted woman with dyed hair.

"How's tricks?" He sat down in the last seat before the counter which was close to the kitchen.

The fliers sat near the door. "Tea

roll little pot-bellied figure and pipe-stem legs, and he stood nervously rubbing his hands over his dirty apron.

"I just got ast you," he began in a hissing whisper. "Nick, he's a great one to kid you along. On the level, are you Gunnar Thorwald and—that girl?"

They were, they told him, Sarah Lynn gently, the Norwegian ace with a sudden friendliness which surprised her.

The wife wheeled about, snarling. "You get back where you belong!" She took an order. "Stack a' wheats!" "Ham and!"

Without a word he scuttled back into his unsavory domain.

Gunnar finished his bread and honey and drank off his tea. His eyes were narrowed to a gleaming blue slit. Then he stood up and walked back through the stuffy room, past the hunched figures feed-

him bodily out of his fetid trench and propel him through the tiny restaurant and into the taxi, the driver, wiping his mouth, grinning, running after, jumping into his seat, Sarah Lynn, delighted, aghast, following Gunnar, the staring customers, the woman emitting shrill staccato cries—

"Pop! Pop! You come back here! You crazy? Want to break your fool neck? Pop!" She began to whimper and storn. "You let loose a' him, Mister! I'll call a cop! You can't kidnap—"

They were rattling down the street, the little man wedged in between them, the unhealthy pallor of his face suffused with scarlet excitement.

When they reached the field Gunnar placed a friendly arm about the man. "Still game?" he asked. To which the fellow, too overcome to talk, nodded eagerly.

(TO BE CONTINUED)

Soil Treatment Kills Japanese Beetle Grubs That Feed on Roots of Vegetation

When Japanese beetles, the offspring of those that slipped unobtrusively into the United States some time before 1916 on nursery stock from the Far East, were first discovered in New Jersey, entomologists could suggest no effective way to stop their spread. In their native home, various parasites and predators keep these beetles from becoming a serious economic pest but those that migrated here brought no natural enemies with them. Consequently they multiplied rapidly.

Now they infest continuously about 11,400 square miles, mostly in New Jersey but running into New York, Pennsylvania, Delaware and Maryland. Isolated colonies have sprung up elsewhere along the Atlantic seaboard. Nothing can be done to stop the natural spread of the Japanese beetle here. Each year it extends its territory a few miles on every front, notes a writer in the Detroit Free Press.

The only effective control measure for the Japanese beetle, treating infested soil with lead arsenate, is too expensive for use over a large area. In small, isolated areas of

infestation, it is a cheap safeguard against a spreading infestation that would soon become very costly.

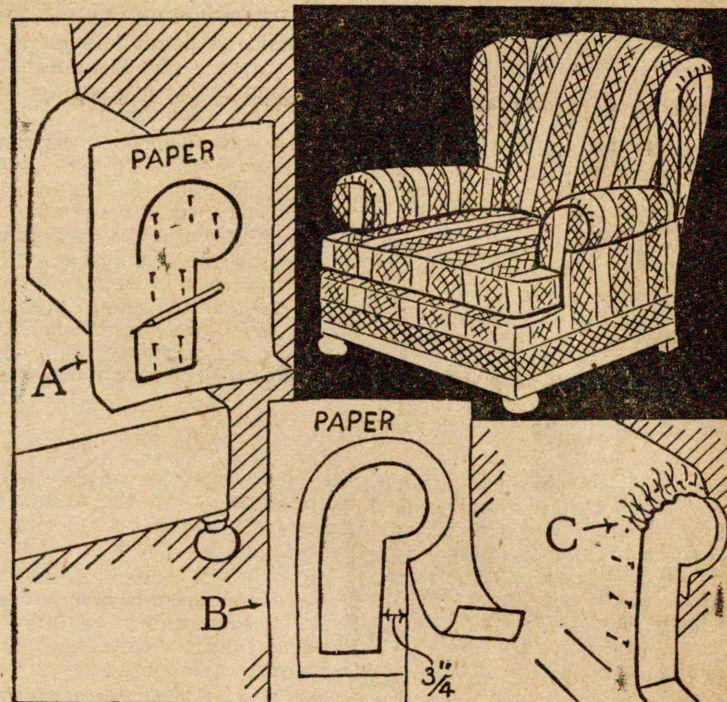

Soil treatment kills the beetle grubs that, just below the surface, feed on the roots of grass and other vegetation. Unsightly brown spots in lawns and on golf courses in the East are evidence of this feeding. Adult beetles feed on about 260 different plants. They live mainly on foliage and the upper and outer parts of plants exposed to bright sunlight.

Changes in United States Capitol

In 1864 congress transformed the old house wing of the Capitol into Statuary hall. On December 2, 1863, a patriotic crowd assembled to witness the placing of Thomas Crawford's Statue of Freedom on the top of the dome. When the field battery fired the national salute at noon the Capitol was complete in its main lines. Subsequently minor renovations were made to permit the introduction of steam heating (1865); elevators (1874); fireproofing (1881); electric lighting (1882); modern drainage system (1893); and air conditioning (1937).

HOW to SEW

By RUTH WYETH SPEARS

Making Patterns for Slip Covers

STRIPES are popular for slip covers this season. Don't forget to center a striped pattern in the back and the seat of a chair. The crosswise use of stripes may also have possibilities as for the bottom of the chair shown here.

Generally the main pieces of a slip cover are fitted and cut right on the piece of furniture with a generous allowance for seams and a tuck in around spring seats. For small shaped sections, such as the fronts of some chair arms and parts of some wing chairs, paper patterns may be made to use in cutting the fabric.

Pin the paper to the part of which you wish to make a pattern, as shown here at A, then mark the outline on the paper feeling your way along the edge line with the side rather than the tip of the pencil point. Cut the pattern $\frac{3}{4}$ inch outside the outline as shown at B. This allows for a seam and slight ease in the slip cover which should never be taut at any point. When gathers are needed to shape the fabric over rounded parts,

gather the edge and arrange the gathers with the cover piece pinned in place as shown at C.

Directions for making various types of slip covers are given in my book, SEWING, for the Home Decorator; also many types of dressing table covers, seventeen different types of curtains, bedspreads, and numerous other useful and decorative things for the home. I shall be glad to send you a copy upon receipt of 25 cents (coins preferred). Address Mrs. Spears at 210 S. Desplaines St., Chicago, Ill.

ARE YOU ONLY A $\frac{3}{4}$ WIFE?

Men can never understand a three-quarter wife—a wife who is lovable for three weeks of the month—but a hell-out the fourth.

No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband.

For three generations one woman has told another how to get "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure.

Make a note NOW to get a bottle of Pinkham's today WITHOUT FAIL from your druggist—more than a million women have written in letters reporting benefit.

Why not try LYDIA E. PINKHAM'S VEGETABLE COMPOUND?

The Unsociable One

Society is no comfort to one not social.—Shakespeare.

Start the day feeling FIT and ACTIVE!

Don't let a sluggish overworked system hold you back. CLEANSE INTERNALLY WITH GARFIELD TEA. Get rid of the wastes that slow you up and keep you feeling run down and inactive. Usually works within 8 to 10 hrs. Will not vomit. At drug stores 25c & 10c.

GARFIELD TEA

CHEW LONG BILL NAVY TOBACCO

5c PLUG

Pure as a Dewdrop

OIL PURITY . . . an objective achieved by Quaker State's laboratories. In four great, modern refineries . . . operating under the most exacting control . . . the finest Pennsylvania crude oil is freed of all traces of impurities, resulting in an oil so pure that you need have no fear of motor troubles from sludge, carbon or corrosion. Acid-Free Quaker State will make your car run better, last longer. Retail price, 35¢ a quart. Quaker State Oil Refining Corporation, Oil City, Pennsylvania.

For Street and Home Wear

TWO dresses, as practical as they are pretty—one for shopping and general street wear, the other ideal for round the house, and made on slenderizing lines.

Notice that they both use the smart front closing. Both these patterns are quick and easy to make up, and each is accompanied by a complete and detailed sew chart.

Frock With Girdled Waistline.

Fashion says everything must have a certain amount of soft detailing this season, and this charming tailored dress obeys with draping at the neckline, the girdled waist, and bust fullness beneath smooth shoulders. Easy sleeves, cut in one with the shoulders, make it a cool style for summer. Silk crepe, silk print (in that case, have a plain-colored girdle effect) sharkskin, linen and shantung are good fabric choices for this.

House Dress for Large Women. It's a diagram dress, so that it may be made in just a few hours. The long, unbroken, unbelted line, the utter simplicity, the v-neck, make this dress extremely becoming to women in the 36 to 52 size range. Short, pleated sleeves give plenty of ease for reaching and stretching. Make this up in pretty cottons that will stand plenty of wear and washing—percale, gingham, seersucker, broadcloth.

The Patterns.

1489 is designed for sizes 14, 16, 18, 20, 40 and 42. Size 16 requires 4½ yards of 39-inch material, plus ¾ yard of contrasting for girdle. 1476 is designed for sizes 36, 38,

40, 42, 44, 46, 48, 50 and 52. Size 38 requires 5 yards of 35-inch material.

Spring-Summer Pattern Book.

Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs. The Barbara Bell patterns are well planned, accurately cut and easy to follow. Each pattern includes a sew-chart which enables even a beginner to cut and make her own clothes.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Costly Tears

Tears cost a lot of money in Hollywood. In the first place, it takes quite a time to induce a satisfactory flow, and time is worth dollars in the film studios.

In the second place, complete "re-make-up" of an actress is necessary after every "cry." And, thirdly, the emotional strain, actresses claim, leaves them with such a "hang over" that they are unable to work the following day. The film is held up—but wages are paid just the same.

Uncle Phil Says:

He Generally Shows It

Anyone enforcing discipline may have the best intentions, but if he is opposed, it spoils his temper.

When we all have television sets one more mystery will be solved. We'll know what makes studio audiences laugh.

If you cheer loud enough at a public meeting you will be appointed on a committee.

As Malicious as Gossips

There are those who are intent on telling the truth if it will hurt somebody.

One needs to be trained for the vocation he is to follow, but he also needs an education in order to enjoy the intellectual things of life.

Would Reduce Lying

It ought to be considered polite to refuse to answer when one considers it best not to.

Make a man happy and he'll sing; make a woman happy and she'll cry.

The man with a one-track mind is the one who struggles bravely to drag the conversation at a dinner party back to where it was when he was interrupted.

JUST JESTS

To the Point

"First of all, my boy, realize that my time is limited. Secondly, say what you want. Thirdly, be short."

"Well, dad, firstly I do. Secondly, I will. Thirdly, I am!"

Money talks. But it never gives itself away.

Sporting Offer

The kindly old man was trying to stop two boys from fighting. "Will you stop fighting if I give you a nickel each?" he asked.

The boys looked doubtful. Then: "Make it a dime for the winner," one suggested.

Love in a cottage is out of date. It has become a little flat.

Aiming to Please

"Waiter, I want fresh eggs or none at all."

"Yessir. Try our nice pork sausages."

Coming Clean

A grocer's lad was ascending a staircase with his arms full of packages.

"Boy," said the housewife somewhat sharply, "are your feet clean?"

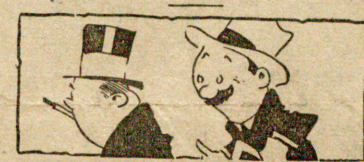

"Yes'm," replied the boy; "it's only my boots that's dirty."

Oh! Oh!

"Has there ever been another woman in your life, Harold?"

"No fear—the wife's too darned suspicious."

CAN'T TAKE IT

Holowynge—Why don't you go back to your old home town and settle down?

Cryeng—I'd love to; but I can't. Holowynge—Why not?

Cryeng—Well, I drove away nearly 10 years ago in a swell, new car. It's a wreck now.

Floor Space

"This is a very large skating rink you have here."

"Yes—we can seat over a thousand."

Tired Out

A man went wearily into a barber's shop and slumped into a chair.

"Give me a shave," he said.

The barber told him that he was too far down in the chair for a shave.

"All right," said the customer wearily, "give me a haircut."

Clues Galore

He was very angry at being kept waiting at the station.

"So you had difficulty in finding me, eh?" he protested to the chauffeur. "Didn't your employer describe me?"

"Yes, sir," the chauffeur replied, "but there are so many bald-headed old buffers with red noses."

WHAT TO EAT AND WHY

C. Houston Goudiss

Discusses the
NEED FOR IODINE

Key Substance of the Thyroid Gland--Tells How to Avoid Iodine Starvation

By C. HOUSTON GOUDISS

6 East 39th St., New York City

THE discovery of our vital need for iodine is one of the most thrilling chapters in the long history of scientific research.

Many investigators contributed to our understanding of iodine hunger, but special credit is due to Dr. David Marine and his co-workers; and to Dr. E. C. Kendall of the Mayo Clinics at Rochester, Minn.

Today we know that although it constitutes only about one part in three million parts of the body weight, iodine is so essential that its absence from the diet may have the gravest consequences.

Thyroid—The Gland of Glands

Iodine is necessary for the normal functioning of the thyroid gland, situated in the front part of the neck. The thyroid is so important that it is often regarded as the throttle which governs the human locomotive, and when it fails to function normally, the body machinery may be thrown out of balance.

Thyroid disturbance during childhood may affect mental and physical development, and many children have been accused of laziness who are suffering from thyroid deficiency. Thyroid disorder may be a complicating factor in obesity, and specialists have found that it is associated with many stubborn skin diseases. It is also claimed that iodine starvation influences mental make-up and emotional tendencies.

Disfiguring Goiter

Simple goiter is a common disorder of the thyroid gland. At one time the very mention of this disease terrified girls and women, who feared the unsightly lump in the neck which disfigures the victim. Now, thanks to dramatic experiments, we know that simple goiter is an iodine deficiency disease.

Animal Experiments Point the Way

In 1916, it was estimated that a million young pigs died annually in Wisconsin. Investigation disclosed that their thyroid glands were abnormally large and abnormally low in iodine. When iodine was administered to the mothers, the young pigs were born normal.

Scientists reasoned that if goiter could be prevented in animals, it could be prevented in humans, and undertook the now famous census in Akron, Ohio. A study was made of the thyroid glands of all school girls from the fifth to the twelfth grades. Almost 50 per cent were found to have enlarged thyroid glands.

The girls were given small doses of sodium iodide dissolved in drinking water at given periods over 2½ years. At the end of that time, investigators found that of 2,000 pupils, only 5 developed thyroid enlargement. Of the same number not treated, 500 showed enlargement.

Danger Periods

This demonstration aroused the interest of the scientific world and

Send for This
FREE CHART
Showing the Iodine Content
of Various Foods

YOU are invited to write C. Houston Goudiss for a chart showing the foods rich in iodine and those which are poor in this substance. It will serve as a valuable guide in preparing balanced menus.

Just ask for the Iodine Chart, addressing C. Houston Goudiss, at 6 East 39th Street, New York City. A post card is sufficient to carry your request.

gave impetus to additional experiments which increased our knowledge of the iodine requirement.

The great danger periods are during pregnancy, childhood and adolescence. The diet of the expectant mother must include an adequate supply to protect herself and avoid the early development of simple goiter in the child.

It is also essential to provide sufficient iodine for growing children, as the incidence of the disease increases steadily up to the eighteenth year in girls; in boys it reaches its peak at twelve.

Some investigators also claim that one way to enhance the action of the glands after middle life, and so prolong youth, is to include in the daily diet some foods with a high iodine content.

Nature's Storehouse of Iodine

It is the duty of every homemaker to learn where the necessary iodine can be obtained and to include iodine-rich foods in the daily diet, but it is especially important for those living in "the goiter belt." This area stretches along the Appalachian mountains, as far north as Vermont, westward through the basin of the Great Lakes to the state of Washington, and southward over the Rocky Mountain and Pacific states.

Iodine-Rich Foods

The sea is the great storehouse of iodine and hence, the most abundant sources are sea food, including salmon, cod, crabmeat and oysters; cod liver oil; and salt.

Fruits and vegetables grown near the sea contain varying amounts of iodine, depending upon the water and soil, and the season, the iodine content being at a maximum in the autumn and winter.

In general, it may be said that the leaves of plants contain more iodine than the roots, and that leafy vegetables and legumes store more than fruits, with the exception of cranberries, which are a good source. When the soil is rich in iodine, watercress becomes a fine source of this substance.

Iodized Salt

One of the most satisfactory methods for adding iodine to the diet, especially in goiterous regions, is through the use of iodized salt. In Detroit, a city-wide test of iodized salt reduced the prevalence of simple goiter from 36 per cent to 2 per cent. Similar figures have been cited for other localities. Iodized salt costs no more than ordinary table salt and is an excellent safeguard against simple goiter.

Iodine in Drinking Water

Even in early times, it was believed that there was some relation between goiter and drinking water, and recent evidence has disclosed that there was a sound basis for this belief. Two investigators found that the water in a large part of the northern half of the United States falls into a low-iodine classification.

Several communities have given consideration to the prevention of goiter by the addition of iodine to the water supply. This method is commendable, but it must be borne in mind that wherever iodine is taken in forms other than food, careful supervision by the physician or the public health authorities is necessary.

To those homemakers interested in planning the best possible diet

Have You a Question?

Ask C. Houston Goudiss

C. Houston Goudiss has put at the disposal of readers of this newspaper all the facilities of his famous Experimental Kitchen Laboratory in New York City. He will gladly answer questions concerning foods and diet. It's not necessary to write a letter unless you desire, for post card inquiries will receive the same careful attention. Address him at 6 East 39th Street, New York City.

for their families, I shall gladly send lists showing which foods are rich in iodine and which are poor in this substance.

Questions Answered

Miss S. G.—There is no justification for serving toast at every meal instead of bread. It is true that proper toasting changes some of the starch to dextrine which is quickly and easily digested. But laboratory experiments reveal that the proteins of toasted bread and crusts have a lower digestibility, and animals gain less weight when fed on them than on the untoasted bread and the inside crumbs of the loaf.

Mrs. B. R. S.—The average meal leaves the stomach within four hours, though a large meal may stay for five hours. However, the length of time food remains in the stomach is only a fraction of that required for the entire digestive process, which varies in normal individuals from 12 to 47 hours. Carbohydrates leave the stomach most quickly, proteins are next, and fats require the longest period.

Miss C. T.—Agar-agar is a non-irritating, indigestible carbohydrate. As it is not digested, its caloric value is zero, and it could not possibly be fattening.

BEAUTY CONTEST for PLANTS!

HAVE you ever wondered why most of the finest gardens in your locality are grown from Ferry's Seeds? Here's why:

All Ferry's Seeds are the result of many years of careful breeding, selecting and improving. In developing a new strain, the seed experts of the Ferry-Morse Seed-Breeding Institute hold "plant beauty contests" to select the finest plants. Their seeds are planted for the next crop. Thus, year after year, weaknesses are eliminated and desirable qualities encouraged.

Select your flower and vegetable seeds from the Ferry's Seeds store display. All have been tested this year for germination and tested for true-ness to type. 5c a packet and up. Ferry-Morse Seed Co., Detroit, San Francisco.

FERRY'S SEEDS

Desirable Crown

The most worthy crown is a good reputation.

THE ALL-WEATHER LIGHT

Light it up and go anywhere, —a Coleman

Light it up and go anywhere, in any time, in any weather. Genuine Pyrex Globe protects mantle against wind, snow, rain. Clear, powerful brilliance... just the light for use around the farm... dandy for hunting, camping. "The Light of 1000 Uses". Has overize, long-service generator. See the Coleman at your dealer's.

Have You Entered This Cake Recipe Contest?

IT'S EASY TO WIN A CASH PRIZE

Nothing to buy . . . No Letter to write

Have you submitted a recipe in the big Cake Recipe Contest now being conducted through this newspaper by C. Houston Goudiss, author of our "WHAT TO EAT AND WHY" series?

If not, take time today to write out your favorite cake recipe, and send it to him, attaching the coupon below.

What Is Your Specialty?

There are no restrictions as to the type of recipe that may be submitted. A simple loaf cake has an equal chance with an elaborate layer cake, provided it's good! So send along the recipe for that cake which never fails to delight your family. Enter that special cake you reserve for parties and church suppers. Or the one your children say is the best cake in town.

No Letter to Write.

You'll agree that this is one of the easiest contests you ever entered, because there is nothing to buy, no letter to write. And it won't take more than a few minutes to write out your recipe and fill in the coupon.

Contest Closes May 31st.

You won't have long to wait either, to know the outcome of the contest. For all recipes must be postmarked not later than May 31, 1938, and prize winners will be announced as soon as possible thereafter.

Prize winning recipes, together with those receiving honorable mention from the judges, will be printed in a booklet to be distributed nationally.

16 Cash Prizes.

The winning cakes will be selected by experienced home economists on the staff of the Experimental Kitchen Laboratory maintained by C. Houston Goudiss in New York City. The recipe adjudged the best will win \$25 for the lucky homemaker who submits it; there will be five second prizes of \$10 each and ten third prizes of \$5 each.

First Prize	Five Second Prizes	Ten Third Prizes
\$25.00	\$10.00 Ea.	\$5.00 Ea.

● Enter your recipe in this contest today. Mail recipe and coupon, properly filled out with your full name, address, town, state, and the trade name of the shortening, baking powder and flour used in your recipe, to C. Houston Goudiss, 6 East 39th Street, New York City.
